### Bostini Bug Brooches

#### Outline of Workshop

Bostini bugs are one of the many colourful characters to emerge from the forest near the workshop of Murgatroyd & Bean. To make these highly decorative, three-dimensional bug brooches, we will use a combination of simple stumpwork, applique and hand embroidery techniques. The bolder the better!

#### Requirements

Participants will need to bring the following with them:

- Needlecase and embroidery scissors
- Small hoop (6" good) with a piece of calico in it
- Selection of embroidery threads (stranded, perle & coton a broder are all good, so too any gloss or metallic threads)

The tutor will bring everything else (including spare hoops and additional threads for the group to use).
